## **I.MGNREGA-NRLM CONVERGENCE STRATEGIES THROUG THE CLUSTER FACILITATION TEAM (CFT)**

### **Introduction:**

In a pilot basis the MGNREGA-NRLM Convergence strategy through the Cluster Facilitation Team (CFT) programme for Muribahal block has been chosen for 3 years by the MoRD and PR deptt Government of Odisha and as per the Planning the programme has been started in 1<sup>st</sup> year from selected 6 pilot GPs like Haldi, Lebeda,Tupaudar, Malisira,Ganrei,Bankel G.Ps. As a facilitating CSO Janamukti Anusthan has been implemented the programme from 1<sup>st</sup> Aug, 2014 to 22<sup>nd</sup> July,2015 after the signing of MoU with PR department Government of Odisha on dated 23<sup>rd</sup> July, 2014.The programme extended for the 2nd year (2015-16) in same area after the renewal of the project. The project coverage villages no. is 61 and the no.of GP is 6 under Muribahal block. Total area in hectors is 14319 in six GP. No.of job card holders of the project area are 10169 and total no. of household is 11913 where the total population is 47711.To fulfill the project objectives following Initiatives are under taken:

### **1. Village level awareness cum community mobilisation meeting:**

As like the 1st year the 2<sup>nd</sup> year also organized village level awareness cum community mobilisation meetings organized in all 61 project villages. The objective behind the village level meeting is to introduce the objective of the CFT. The CFT team of the organization built relation with villagers and convinced them about the success of the 2 flagship programmes like, MGNREGA and NRLM. In the meeting the team presented the 1<sup>st</sup> year achievement process and 2<sup>nd</sup> year planning process and

appealed to the villagers to involve and success of the programme. There were focus mainly on the Intensive Participatory Planning Exercise (IPPE-I) and IPPE-II process. In these meetings wage seekers along with Mates, SHG members and PRIs were participated.

## **2. Baseline survey and Secondary data collection.**

Analyzed and consolidated the collected Baseline data of no. of 61 villages of CFT GPs (Haldi, Bankel, Tupaudar, Ganrei, Lebda and Malisira) has been completed. The supporting materials for prospective planning i.e. cadastral maps, topo-sheet and related information from different line departments have been collected. To achieve it a standardize format has been developed and based on that the data has been collected. Door to door survey, Focus Group Discussion (FGD) process has been adopted. After the completion of survey it was consolidated and analyzed in the team and presented at the village level meeting.

## **3. Social mapping Resource mapping and livelihood analysis through the PRA exercise**

The Participatory planning Exercise has been stated through the PRA process using different tools like Social Mapping, Resource Mapping, Migration mapping, livelihood analysis, seasonality mapping process. During the IPPE –II .The PRA process has been completed in all villages. To cover the process easily being prepared awareness and supporting materials like leaflet and banner to introduce the 30 permissible works under MGNREGA.

## **4. Mapping of Distress migration and vulnerable HHs**

Distress migration is a crucial issue of Muribahal block. To know about the status and situation of the migrant workers, migrant worker registration process has been started in 1<sup>st</sup> year and its continuing in all project villages.

## **5. Preparation of seasonality work calendar**

Based on the migration status and their livelihood situation, the mostly vulnerable and migrant sensitive HHs have been identified in Social map and prepared a seasonality work calendar to engage them in MGNREGA work as per their need. The work calendars indicate month wise labour engagement at their village. During the period well being analyzed and identified the most vulnerable families of the village using PRA tools in all villages.

## **6. Households wise livelihood plan preparation**

To minimize the poverty and reduce the distress migration, the households based livelihood plan has been developed in 61 villages. These plans provide lot of information about the economic condition of the targeted families. No. of 52 livelihood plans are under the process.

## **7. SHG Status collection**

SHGs are playing important role to develop village economy and check the traditional money lending system. The poor women of the villages form SHGs for enhancement of their livelihood. But some cases due to the lack of skill and knowledge they can't fulfill the objective. To make functional and strengthen the defunct SHG a survey of SHGs have been made. After the collection of status report it was analyzed and prepared the SHG wise plan to provide them capacity building training on regularize meeting, saving, record keeping, bank linkages and day to day management. Information has been collected from the SHGS, categorically divided, trained them and linked them with Odisha livelihood mission (OLM) for further livelihood enhancement. Created new Self Help Groups for distress migrant labour Hhs in highly migration prone villages. Some steps have been taken with the OLM department to bring SHG folds to the excluded sections.

## **8. Demand generation and Registration (Community mobilization, Awareness generation, organizing regular Rojgar divas)**

Mobilized and encouraged the jobseekers for job card registration. Mobilized the job seekers to participate in Rojgar divas for demanding MGNREGA work in every 1<sup>st</sup> and 3<sup>rd</sup> Wednesday of the month and organized the job seekers groups and trained them to fill up C1 form properly. Generates awareness among the job seekers for demanding job and bringing acknowledgement receipt from the GP office.

## **9. Wage seeker group (Labour group) formation**

To fight against the irregularities of MGNREGA and assist to job seekers to enhance their livelihood, the village level jobseekers group formation concept has been adopted. By the facilitation of Janamukti Anusthan 35 labour groups (Job seeker committee) have been formed in project Area.

## **10. Field level training of GP functionaries, Mates, GRS, and PRIs**

Two field level trainings of GP functionaries, Mates, GRS, and PRIs have been organized by Janamukti Anusthan in Haldi and Malisira GP. The block Assistant Program Officer attended and Inaugurated the

training programme. As a participants GRS, Mates and JSC leaders were attended in the training. The CFT team trained to the participants on measuring slope, project estimation, costing and designing followed by the Integrated Watershed Management Principle.

### 11. Intensive Participatory Planning Exercise IPPE-II Training

The 2 days training programme on IPPE –II has been successfully conducted on dated 30th September to 1<sup>st</sup> Oct, 2015 at block meeting hall Muribahal. On day 2<sup>nd</sup> a field level practical training was held in Babejuri village of Muribahal GP. The Executive officer, GRS and the village Mates were participated in the training. The barefoot engineer of the Janamukti Anusthan first shared about the basic idea about the planning exercise then given training on social mapping, resource mapping, and seasonality work calendar. After the conduction of the training they were able to prepare village micro plan through Intensive Participatory planning Exercise. The basic difference between the IPPE –I and IPPE –II is, in IPPE- I process only MGNREGA based plan being prepared but in IPPE-II process no.of 4 other programme like NRLM, DDUGKY, IAY, NOAP along with MGNREGA have been included. On the eve of second October ,2015 the special Gramsabha are organized in the GPs and there were prepared the schedule to make plan with the Panchayat Resource Team to prepare the labour budget for year 2016-17 through the IPPE –II process.

#### **Detail of the Project area:**

Dangarpada, Gudighat, Lebda and Malisira G.Ps are the project area of Janamukti Anusthan where the People's action In Development project is implementing. There are thirty villages in the Project .The total indentified households for the projects of the 4 G.Ps are 3000 where the

total population is 11489. SC HHS is 567 and population is 2247. ST HHS is 1774 and population is 6234. Other HHs is 659 and population is 3007. The project coverage area is 7701 hector land including 4 GPs. Where the total cultivated land is 5444 hector and forest coverage area of 508 hectors. Whereas Grazing land is 697 hector, non agricultural land is 552 hector, The agricultural is divided in three part like upland medium land and upland and percentage of the agricultural land is upland 50.27%, middle land is 22.25% where as low land is 27.48%. The total job card holder of the project are is 6098. Whereas the total active job cards are 2213. ST percentage of total worker is 35.

### About the project area.

Muribahal block is one of the most backward blocks in Bolangir district. The main reasons of its backwardness are poverty, illiteracy, and migration. All the 18 Grampanchayats of the block are backward and undeveloped. Among all the panchayats Dangarpada, Gudighat, Lebeda and Malisira Panchayats are most underdeveloped and backward. These are also much neglected GPs. Illiteracy, migration, poverty, blind belief; voiceless, poor, landless are high in these GPs. So Janamukti Anusthan has selected these GPs for the upliftment and development of the downtrend.

The main issues of these GPs are distress migration. The migration of last year was 437 H.Hs and population was 1397. Large number of people of the GPs goes for migration. They mainly go to Raipur, Mumbai and Hyderabad. They go for construction and brick kiln work. The people of this area are very illiterate. So the Dalal come to the needy family, give some money for advance and take with them for migration. The migrants face many problems. They are exploited there by contractor and brick kiln owner. They become bonded there. Janamukti Anusthan has rescued a number of bonded labors from Hyderabad by the help of different government and non government agencies. At present there are 54 rescued bonded labors in project area. Always the migrants get many problems. Mental and Physical torture, harassment, death cases are common.

The other reasons of these are as follows. This area is mainly hot and dry. It is very nearest to Titilagarh. It is known to everybody that Titilagarh is very hot. The temperature becomes 48/49 degree celcius in summer. So the water harvesting structure (WHS), well, farm pond and other water bodies become dry in summer. The small and marginal farmers do not get water for cultivation. Most of the area of the GPs is upland based. So the farmers demoralize to cultivate in upland area. Irrigation system is very poor in this area. Very few people cultivate their land by the traditional lifting irrigation system.

Bolangir is a drought prone district. So these GPs are also come under the drought prone area. The rain fall is erotic's the cultivation not successful in the area. Therefore the land holders also go for migration. Poverty of these GPs is higher than other panchayats of muribahal block. Illiteracy and poverty are the two main problems of these panchayat. Although the area comes under dense forest area, but village people do not use it properly. Management of forest is poor so, deforestation is very high.

Soil erosion is another problem in this area. Due to lack of sufficient water bodies' management soil erosion occur regularly. Many farmers get problem due to over flooded water. So acres of crops get loss.

Due to lack of proper marketing system the farmers urge to sell their product in the nearby market in very cheap price. Now cotton (cash crop) cultivation has taken the place of food crop. Farmers use regularly chemical pesticides, fertilizer by which the production capacity of the soil going down and down. So the land holders are also coming in to the indebtedness. To repay their borrowing money they receive the advance money by high interest from the Dalal and go for migration.

Due to lack of proper drinking water facility, proper medical facility, proper public distribution system, proper reach of government programmes, proper training on upliftment and development of the people of these GPs are facing a lot of problem.

## Baseline survey:

The Baseline Survey is the first step in the project. A Baseline Survey gathers key information early in a project so that later judgments can be made about the quality and development results achieved of the project. The project's monitoring and evaluation plan is closely linked to each objective and achievement and means of verification. The Baseline Survey is an early element in the monitoring and evaluation plan to systematically assess the circumstances in which the project commences. It provides the basis for subsequent assessment of how efficiently the activity is being implemented and the eventual result will be achieved. Subsequent monitoring of project progress also gathers and

analyses data using the log frame and will be consistent with, but not repeat, the Baseline Survey. Mid-term reviews, project completion reports and other evaluations will judge progress largely based on comparisons with the information from the Baseline Survey. A development activity entails change, so a good monitoring and evaluation system will: show whether change is occurring; indicate the results of the activity, including eventual impacts, whether these changes are intended or not intended, direct or indirect, positive or negative, primary or secondary; and suggest how to improve the efficiency of implementation, the extent of the desired results achieved and their sustainability. The first stage in building an evaluation system typically involves design, execution and analysis of the baseline studies in order to establish the frame of reference for subsequent comparisons on which evaluation will be based. Any development work depends upon right information and data. It also helps to proceed toward the goal and objective. It should be based on right format and time. Strategically project staff were followed the prepare format and they were started their visit to door to door survey and to get the actual information from the villagers. In this campaigning villager supported more to our staff. Some time as an individual worker had been collected the information and if required team had been helped to collected from the target groups. Mates, ward members, village level volunteers were helping more to the staff.

### Participatory planning:

Participatory planning is part of the decentralization process and it aims to identify the critical problems, joint priorities, elaboration and adoption of a socio-economic development strategies. The use of participatory methods and tools has become common practice in the field. The process mainly involves: appraisal, needs identification, restitution, organization, planning, implementation and evaluation.

Purpose of participatory planning:

The purpose of participatory planning is to create a platform for learning rather than plunging directly into problem solving. The process is expected to enhance

- (1) Identification of the felt needs of the people
- (2) Bringing forth consensus
- (3) The empowerment of local disadvantaged groups
- (4) Integration of local knowledge systems into project design

- (5) Two-way learning process between the project and local people
  - (6) Political commitment and support
  - (7) Accountability in local governance.
  - (8) Ridge to valley treatment to enhance the soil moisture content as well as the agro production.
- Participatory rural appraisal evolved from rapid rural appraisal-a set of informal techniques used by development practitioners in rural areas to collect and analyze data. PRA is a label given to a growing family of participatory approaches and methods that emphasize local knowledge and enable local people to make their own appraisal, analysis, and plans. Adopting the process Janamukti Anusthan has facilitated to prepare 30 micro level plans in Project Area.

### Steps under taken for Perspective Planning:

Social Mapping, Resource mapping, Transact walk, seasonality mapping, rough estimation work, and project list building prioritization of work have been prepared through the PRA process in 30 project villages.

### Job seeker committees and union formation:

The objective behind it to create a sustainable resource group at village level to fight against the irregularities of the programme and assist jobseeker for their livelihood, to help them for job, to help

them for job card registration if any labour has left out from job card, put off job demand form, make communication with panchayat, Panchayat samitee and with other agencies to highlighted the existing issue in their locality. By the initiative we have selected some person those who are interested to work as job seeker leader for their village.

The main concept behind the job seekers committee is to organize the unorganized Job seekers. Formation and create a sustainable people movement for the effectiveness of MGNREGA. When the administration is thinking about the negative side of act we had taken active stand and oath to success the Act and to convert it to positives angle through the job seeker union. Till date no.of 30 job seeker committees at village level in project area has been formed. These committees and union constituted by the active participation and contribution of village people and the help of block and GP administration. Eos, GPEO, GRS, Mates, Ward members were attending to the committee meeting of job seeker and heartily encouraging them. All the meetings were organized with peace and success.

The objective of the committee is to work as pressure groups at GP level to conduct Gram sabha properly. Beside this to create pressure for ensuring job, timely measurement, timely payment, social Audit, GP level MGNREGA plan preparation and recommendation it on Gram Sabha meeting.

### Formation of Farmer's club:

The objective behind to create farmer clubs at village level is to create awareness among the farmers about the agriculture and horticulture. Another main objectives are capacitate them for sustainable agriculture and dry land farming for their livelihood, to help them for different Agriculture and Horticulture scheme of Govt., to help them for make communication with Agriculture and Horticulture dept. and with other agencies to highlight the existing issue in their locality. By the initiative we have selected some person those who are interested to work as trainer and when they get agricultural training properly they should work as master trainer of their respect villages. Till date no. of 30 Farmer clubs at village level in project area has been formed.

### Village level awareness camps on different schemes & services:

The Impact of the traditional street play, folk dance and folk song s are useful information sharing method other than teaching. On the other hand The success of MGNREGA and other social safety net schemes depends upon their awareness level and the awareness medium also be effective. We thought about this and appointed a traditional folk dance group "The Sanchar Bahak" team and as per our pre plan the team was moving towards our 15 operational villages of four GPs and presented the shows During the time of show large number of villagers including JSC were attended and enjoyed the show. The team was giving information through the action, song and instruments to the community people about the MGNREGA and different Government schemes.
